## INTRODUCTON TO TEXAS LITIGATION STRATEGISTS

### LAW CLINIC

#### "Against All Odds Solution"

T.L.S. is a private law clinic that specializes in State and Federal Pre-Trial and Post-conviction relief that necessarily requires that particular attention be given to uncovering errors or loopholes or ineffective assistance of counsel issues during trial, sentencing, and direct appeal. Whether a prisoner stands convicted – there are usually counsel omissions and errors that from a basis for collateral relief pursuant to a habeas corpus action under T 28 U.S.C., §§ 1651, 2241, 2254, or 2255, 1107, or other States Remedies. When an attorney fails to properly prepare and to vigorously advocate for his client, that deficient, performance renders the proceedings Constitutionally inadequate, in violation of the defendant's Sixth Amendment right to effective assistance of counsel. For example, a conflict of interest, failure to object to the District Attorney and/or the Assistant U.S. Attorney's improper conduct, depriving defendant of testifying in his/her own behalf, failure to investigate and perform appropriate interviews, errors in not keeping prejudicial information from the jury and not making appropriate objections, failure to properly cross examine, to call defense witnesses, or to present mitigating evidence, failure to present proper opening statement or closing argument, failure to present case as the defendant requested, or unknowly/involuntary guilty plea, are some areas that provide grounds for the conviction and / or sentence to be vacated.

If you suspect your attorney dropped the ball, you need TLS to prove his/her incompetence and reverse the draconian prison term you are now burdened under. TLS's specialty is ineffective assistance of counsel cases and federal and state prior convictions. The hallmark of TLS's success is our zest in going after the consequences of unskilled and unprincipled attorneys. TLS is not dominated or restrained by the attorneys' unwritten code of not attacking another attorney's judicial performance. If you are looking for a hired gun that is not intimidated by the system, with thirty plus years experience – who makes the system work for our clients – contact TLS now before your time limit to file a post conviction or collateral motion has expired and you are forever barred (in most cases) from the use of that vehicle into the court and have to attack in a more expensive and time consuming manner.

Whether you are in Pre-trail, during trail, sentencing, or appeal status, you need TLS, there is hope, and freedom is within your reach. There is no greater medicine than hope. Retaining TLS now will prevent extra stress and work down the road attempting to

turn around the mistakes made by an attorney out of his league through a collateral appeal.

Regardless of your situation, something can be done to achieve relief. You would not now be suffering under your sentence if you had received a fair trial/sentencing. The only real failure is no longer trying. TLS holds a long standing winning track record as documented in the **TLS LAW REPORT** and this Brochure which describes our diverse services, references, capabilities, requirements, fees, policy, and an abundance of useful material addressing defendants needs. Our Chief Strategists, has obtained and / or developed over fifty self help packets based on his and others work product covering a multitude of post conviction issues. A unique policy is that customers who have purchased an **T.L.S. Self Help Packet**, and later decides to retain T.L.S. to prepare their legal project, may apply the publication price towards the base fee of the legal service to be preformed.

Our legal service fees are moderate in cost so therefore, are not free. T.L.S. is a private organization which does not rely on government funding. Such funding could create a conflict of interest. Accordingly, the part of our service referred to as Post-Conviction-Relief means deliverance from an injustice or wrong conviction and sentence, not private or public assistance for the indigent.

We can set the wheels in motion to return you to freedom sooner than the Government has ordained once an account has been opened with a deposit and the case records are received. We will begin by performing a complete file review, case law research in the client's circuit, and evaluation of the issues that have merit for relief. Our base fee for preparing the recommended project will then be furnished to the client and his representative based on our published fee schedule.

Please keep in mind that it is unethical for any defense counsel to make promises of a specific nature. If someone offers you a miraculous and instant key to the prison gate, he's a con-artist-attorney; not a competent and honest counsel. A lawyer (Jailhouse-Lawyer-Included) telling you what you want to here will not get you out of prison. Persistence and the assistance of effective legal assistants/services willing and able to zealously litigate in your interest will. T.L.S. promise to you is simply that we will assist you in challenging your circumstances to the best of our accomplished reputation. While we do believe in miracles, we know that they come from above our office.
